

### SAPPHIRE MAGIC necklace.

An open white gold setting secures this impressive 17.5-carat emerald-cut sapphire on just two sides, allowing an unobstructed view of the gemstone from Sri Lanka. The sapphire looks almost like it's floating on the necklace, while incident light allows its deep blue hue to glow from within. Sparkling, baguette-cut diamonds and a radiant 'Brilliance of the Sun' rope perfectly showcase the sapphire and come together to form the truly eye-catching SAPPHIRE MAGIC necklace.

Dear friends of Wellendorff,

As of this year, thanks to Isabelle's sister Katharina, women are now the majority in our family business. This girl power deserves to be celebrated.

We would also like to celebrate our latest jewellery innovation: a flawless diamond drop that crowns our EMBRACE ME bracelet, providing a very special highlight. In the sixth edition of our family magazine, this 'eyewitness' reveals what she thinks makes her so unique.

Speaking of unique, you will also be given an insight into the great Wellendorff exhibition, held for the first time at the Pforzheim Jewellery Museum. Unique pieces from the past few decades – all sold to customers a long time ago – found their way back to their birthplace, where they were part of a breathtaking special exhibition that explored 'The Secret of Luxury'.

We've also been making a splash internationally: the exclusive presentation of our Jewellery Piece of the Year in Sonoma Valley, California; and with a big anniversary: 50 years of Wellendorff in Japan.

As you can see, Wellendorff's year has been exciting, innovative and sparkling – just like our new family magazine. With this in mind, we hope you enjoy reading, discovering and celebrating.

Best wishes,

*The Familie Wellendorff*
