Nude, an all-round talent: the pale colour palette, ranging from soft to terracotta pink suits every skin type and goes perfectly with all other colours, unusual patterns, different styles and outfits.

## EMBRACE ME. *My happiness nude bracelet*

The new bracelet made of 18-karat gold is a true technological marvel. The highlight: thanks to its flexible properties, no clasp is required. Small nude-coloured mosaics follow the flexibility of the gold rope almost effortlessly.

## MY DELIGHT

## MY DELIGHT. *nude* + MY DELIGHT. *delicate nude rings*

As dynamic as ever, with every spin of the inner ring, sparkling diamonds and tiny mosaics dance around the wearer's finger and remind her of her very personal moments of delight. Precision to the nearest hundredth of a millimetre is required.

MY DELIGHT

**DELIGHTFUL FLOWERS. ring**

Elaborately engraved 'delightful flowers' represent nature and life – everything that grows and lives. Delicate leaf veins create a unique impression of depth and – closely interwoven with the wearer's experiences – shape her very personal happiness.

**DELIGHTFUL TEMPTATIONS. earrings**

A special feature of the earrings: they can be worn simply as studs or, thanks to a second clasp with long mosaic strands, they can make a grand entrance.

Timeless and deliberately understated, shimmering mother-of-pearl white puts the wearer entirely in the spotlight.  
Fairytale stardust, meanwhile, creates a breathtaking sparkle.

## MY DELIGHT. *mother-of-pearl ring*

A ring that carries little messages with every spin: two hearts made of red cold enamel are the wearer's personal mood barometer. It's a magic moment when two hearts beat as one.
